

3rd INDIAN PEPTIDE SYMPOSIUM

FEBRUARY 24 – 25, 2011

Focus area of SCIENTIFIC SESSIONS

- Peptido Mimetic
- Biomedicines
- Peptide Conformation
- Chemistry Catalysis
- Nano Applications
- Biofunctional Peptides
- Biophysical Studies

Venue :
YASHADA
Raj Bhavan Complex
Baner Road,
PUNE - 411007
Maharashtra, India

Indian Peptide Society, New Delhi cordially invites all concerned to attend 3rd Indian Peptide Symposium to be held on February 24th and 25th February, 2011. The event will focus its deliberations on chemistry and structure of peptides, novel endogenous peptides, combinatorial chemistry, peptide protein interactions, structure activity relationships, molecular modeling of peptides, peptide in genomics, proteomics, peptide drug discovery and analytical techniques in peptide research.

Indian Peptide Society, a non profit scientific society founded in 2006, has achieved significant progress in past few years. The objective was to promote studies, research and development in the field of peptides and allied science. IPS recognizes the contributions made by scientists in the field of peptide research and to provide suitable platform for the researchers in this interdisciplinary field by inviting eminent speakers from all over the globe.

The symposium will encourage young students, research scholars and scientists to participate and share the achievement in peptide research and development through Oral and Poster Presentation. There will be awards for best poster and oral presentation and recognition of achievements in peptide science by a prominent personality who have contributed in the field of Peptides through presentation of LIFETIME ACHIEVEMENT AWARD by the society during the Symposium.
