

India Alliance Margdarshi Fellowships

An opportunity for outstanding established biomedical scientists, in India or overseas, to relocate to a non-profit research organisation in India

To augment its mandate of capacity building India in the area of biomedical science, the India Alliance announces the launch of a new Fellowship scheme

Applicants should

- relocate or have recently relocated (less than one year) to an organisation in India
- be leaders in their area of scientific research
- have a vision to nucleate a cutting edge research programme

Fellows will be provided

- large and flexible funding for consumables, equipment and staff
- travel for meetings and collaborative visits
- overheads for the host Institution

There is no age limit to apply for these Fellowships. Clinical researchers are encouraged to apply. A PhD is not mandatory for Clinicians

This competition is planned to run annually. Applications for the current round are due by 1 May 2011
