

Centre for Cellular and Molecular Platforms

(C-CAMP)
NCBS-TIFR, Bangalore

C-CAMP, a DBT (Govt. of India) initiative, is a member of the Bangalore Bio-cluster. Our mission is to enable success in bioscience research by providing training and services in state of the art technology platforms.

Our technology training program

Applications are invited for hands-on training courses in the field of **Flow Cytometry** for the year 2011.

1st course: 1st- 4th February (successfully completed)

2nd course: 5th- 8th April (successfully completed)

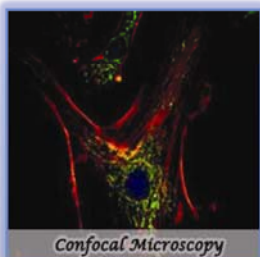

3rd course: 5th- 8th July (Applications open!!)

4th course: 13th-16th December

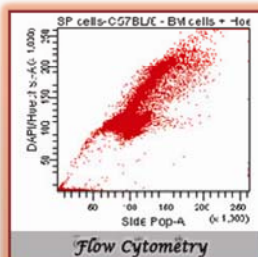

Please contact us at **training at ccamp.res.in** for more information.

Note: The last date for applying for the 5th July course is 5th June, 2011. For further details, please visit <http://ccamp.res.in/courses.html>

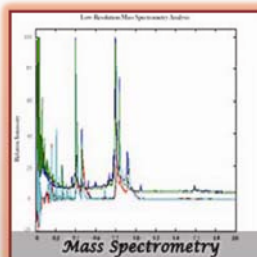

We offer services in following high end research platforms

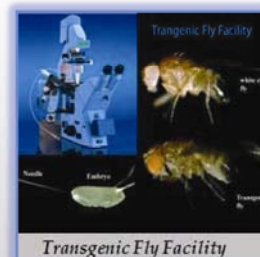

Confocal Microscopy

Flow Cytometry

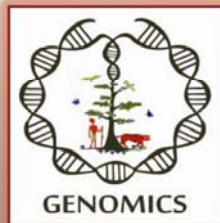

Mass Spectrometry

Transgenic Fly Facility

High Throughput Screening

GENOMICS

IPMO & TTO

Please contact us at **services at ccamp.res.in** for more information
