

Institute of Bioinformatics and Applied Biotechnology

announces admission to its MSc in 'Bioinformatics and Biotechnology' (2012-2014)

Degree awarded by **Indira Gandhi National Open University (IGNOU)**

NOTE: This is a regular **face-to-face** MSc programme at the IBAB campus, in Bengaluru. It is **NOT** a distance-education programme.

ELIGIBILITY: Bachelors' degree in any branch of science or technology, including 4 year BTech, BE etc.

Strengths of IBAB

- IBAB is a 'Centre of Excellence' in research and training in bioinformatics – Department of Information Technology, Govt. of India.
- More than 95% students **placed** from all batches of the earlier diploma programs. Student-wise placement records available on our website.
- State of the art facilities for both bioinformatics and biotechnology.
- Faculty involved in advanced research topics.

Strengths of programme: novel syllabus

- Advanced topics in computational genomics such as gene sequencing, microarray data analysis, biostatistics, biological databases and chemoinformatics.
- IT training by software professionals on C/C++, Java, PERL, MySQL, R package etc.
- Extensive hands-on in silico and wet lab training.
- Opportunities for students to work on live research projects.
- External experts, from elite institutions, to teach certain advanced topics.
- No prior expertise required in any of these areas. Every topic taught from the basics. Biology students perfectly capable of handling this course.

Also note

- IBAB is situated on a 20-acre campus, with hostel and dining facilities, in Bengaluru.
- Ten years of teaching and research; grand success of 2 diploma programmes and several short courses.

Institute of Bioinformatics and Applied Biotechnology
