

Invitation to call for Papers

Statistics in Biomedics

A One-day Workshop Organized by Department of Statistics, Chest Research Foundation, Pune

Date: 28 September 2013

Venue: Chest Research Foundation, Kalyaninagar, Pune, Maharashtra, India

Convener: Dr Shailaja Deshmukh (HOD, Dept of Statistics, Pune University)

Co-convener: Ms Sapna Madas (Sr Biostatistician, CRF, Pune)

Workshop programme: The programme is focused towards presentation of case studies related to problems faced in biomedical research data analysis and discussion on innovative approaches towards an appropriate statistical solution. This will be accompanied by lectures on 'Applications of Statistics in Biomedical Field' such as Statistics in Clinical Trials, Epidemiology, Microarray/Genomics and Big Data analysis by eminent speakers.

Pre-workshop activities: We invite research problems/abstracts from

1. Statisticians interested in applications and
2. Social scientists and medical researchers actively involved in research in which use of statistical tool is vital.

(There will be limited case studies presentations and preference will be given to researchers who have already gathered data and seek statistical advice or assistance. Evidence of project work or publication will strengthen the application.)

How to apply: Please submit your research problem/abstract to sapna@crfindia.com/satish@crfindia.com before **30 July 2013** along with your detailed CV*.

Workshop seats limited! Registrations will be granted on first cum first serve basis.

Registration fees: Rs 1250 per delegate.

Last date: 30 August 2013.

For additional information contact: sapna@crfindia.com; Mob: 98500 85305
satish@crfindia.com; Mob: 72768 79909

*Students, please include recommendation of the Head of the Department/Institute.
