Faculty Recruitment

The Institute of Chemical Technology (ICT), Mumbai was established on 1 October 1933 as Department of Chemical Technology (UDCT) of the University of Bombay. It was granted Deemed to-be-University status by the MHRD, Government of India on 12 September 2008. The ICT is the only state funded Deemed University in India. The institute has been rated as Number One in India and 4th in the Chemical Engineering and Technology in the world. Research has been an integral part of the ICT, with state-of-the-art research facilities. The Government of Maharashtra bestowed in the Assembly the status of Elite Institute and Centre of Excellence on the ICT on 20 April 2012. The Institute has more than 700 Ph.D., 450 Master's and 1100 UG students with 9 UG, 16 PG, 29 Ph.D. and 1 PG Diploma in Chemical Technology Management programme. The institute has the best industry-institute interaction and caters to the needs of chemical, biological, materials and energy industries, having produced more than 500 first generation entrepreneurs. The publication and patents record per faculty is the highest in India.

The ICT invites applications from eligible candidates for 46 faculty positions including 4 endowment positions at various levels to be filled on permanent basis. Candidates with passion for teaching and research, both at fundamental applied and multidisciplinary cutting edge S and T areas are encouraged to apply.

This is a rolling advertisement. After the current faculty recruitment process is over, the vacancies will be indicated on the ICT website and the process will continue till all the posts are filled up. The application form along with all relevant details is available on Institute's website www.ictmumbai.edu.in. The last date of receiving duly filled in applications is **7 February 2014** by 5.00 p.m. in the Administration Section.

SHRIRAM INSTITUTE – TECHNOLOGY BUSINESS INCUBATOR (SRI-TBI)

(A joint Programme of Shriram Institute and Department of Science and Technology (DST), Govt of India)
WHERE IDEAS ARE TRANSLATED INTO BUSSINESS REALITY

Shriram Institute – Technology Business Incubator (SRI-TBI) is established in the premises of Shriram Institute for Industrial Research, Delhi with the support of Department of Science and Technology (DST), Ministry of Science and Technology, Government of India. The SRI-TBI provides multi-dimensional services in the fields of Plastics, Rubbers, Specialty Chemicals and Waste Management.

The objective of SRI-TBI is to promote and develop entrepreneurs, which in turn will have substantial impact on the growth of indigenous industry. Besides developing the new entrepreneurs, the center is also helping in sorting out problems of the existing struggling entrepreneurs and making them competitive in the market.

Various services offered to the Entrepreneurs:

- Identification of product/process
- Process development
- Imparting technical know – how
- Designing/selection of plant and machinery and moulds
- Assisting plant setting and commissioning
- Vendor development
- Product formulation and performance evaluation
- Training of manpower
- Assisting in getting financial support from funding agencies
- Technologies on utilization of wastes such as plastic waste, electronic waste, medical waste, etc.

Applications are invited from aspiring youth for business incubation support at:

Shriram Institute – Technology Business Incubator (SRI-TBI)
