

## Novozymes South Asia Pvt Ltd, Pune

### Postdoctoral Positions in Surfactant/Physical Chemistry

- If you believe you can contribute to the development of *novel* tools for surface cleaning and solubilization of lipids/fats in aqueous systems at low temperature
- If you are a post doc/Ph.D. with hands-on experience in some of the fields below
  - Quantitative analyses of lipids
  - Surfactant and polymer physical chemistry
  - Polymer/surfactant colloid and interface know-how
  - Transport from hard surfaces – and suspension of lipids by means of polymer/surfactant technologies
  - Detergency of hydrophobic substances
- If you would like to work in a dedicated team in Pune at 'state-of-the-art' facilities for 3 years starting January 2016 in an effort sponsored by Novozymes. The work period might be further prolonged.
- If you are easy to come along with, easy to motivate while maintaining a constructively critical attitude and eager to see an application relevant outcome of your scientific work.

Then we would appreciate to receive your written application.

#### Qualifications

- Experience with statistical experimental design for multicomponent efficacy studies is a highly preferred qualification.
