ANNOUNCEMENT

An International Symposium on LIGHT METALS: SCIENCE AND TECHNOLOGY will be held on November 14 and 15, 1983 in the Department of Metallurgical Engineering, Institute of Technology, Banaras Hindu University, Varanasi 221 005, India. This Symposium is being organized to coincide with the Diamond Jubilee Celebrations of Department scheduled for November 14-18, 1983. All aspects of Light Metals including Ore Processing, Extraction, Structure-Property Correlations, Working, Applications and Recent Developments in Aluminium, Titanium, Magnesium and Beryllium will be discussed. In

addition to invited lectures, contributions are invited to be presented at Poster Session. The Symposium will be followed by the 37th Annual Technical Meeting of the Indian Institute of Metals. The last date for receiving abstracts is August 1, 1983. For further details please contact:

Professor C. Suryanarayana
Convener, International Symposium LM:ST
Department of Metallurgical Engineering
