

HISTORICAL NOTES

Table 3. Performance of major cities

City	BL	BLpm
Calcutta	26	2.83
Madras	10	2.33
Bangalore	5	1.72
Delhi	9	1.58
Bombay	3	0.37

according to BLpm. Bombay's performance is shockingly low—Bombay

obviously breeds businessmen, industrialists, lawyers, accountants and cricketers; anything but scientists!

There is a mine of information in Reference 1 and with the Human Resources Development Group of the CSIR waiting to be studied. It is hoped that this modest study will encourage some sociologist of science to take up such a study in a more comprehensive form.

1. *Bhatnagar Laureates (1958-91)*, Human Resources Development Group, CSIR, Publications & Information Directorate, CSIR, New Delhi, 1992.

G. Prathap is in the National Aeronautical Laboratory, Bangalore 560 017 and in the Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore 560 012, India

CENTRE FOR BIOCHEMICAL TECHNOLOGY

(Council of Scientific & Industrial Research)

In Service to the Nation, Scientists and Industry

CBT unveiling new vistas through technological research in principal R&D areas:

- ◆ Allergy and Immunology
- ◆ Immunodiagnostics
- ◆ Genetic Engineering and Molecular Biology
- ◆ Bioorganics including Oligos, Peptides and Synthetic Ribozymes
- ◆ High-Tech Reagents for Life Sciences Research

With well-supported Analysis and R&D facilities, CBT

- ◆ Undertakes sponsored and consultancy projects
- ◆ Offers technology packages for the preparation of

Biochemicals of High-Quality **Enzymes **Enzyme Substrates

For further details please contact:
