

## EKLAVYA

INSTITUTE FOR EDUCATIONAL RESEARCH AND INNOVATIVE ACTION

### *requires*

**E**klavya is an NGO based in Madhya Pradesh. For the last 14 years, we have been working in rural and urban schools developing innovative curricula and books, training teachers, organising research and studies etc. through field based interaction with the state education system, teachers and children.

We publish magazines for children (Chakmak), for teachers (Sandarbh) and a weekly science and technology feature service for news papers (Srote) in Hindi. We also bring out publications on teaching & learning, health and development issues.

**We are seeking to expand our team, and thus invite fresh post-graduates, research students or senior associates to join us.**

**We are looking for persons with:**

1. atleast a postgraduate background in Sciences/Social-Sciences/Linguistics/Mathematics/Education and interest in innovative teaching-learning, field based action research & study, writing etc. *or*
2. background and interest in editing/designing-illustrating/promoting circulation of publications.

We are looking for long-term associates but those interested in short term assignments may also get in touch.

Salaries/emoluments can be mutually decided upon in the context of abilities, experience etc. *Interested may write with full details to*

Centre-in-Charge, Eklavya, E-1/25, Arera Colony, Bhopal-462 016

*Any published/unpublished work of yours may also be sent.*

***Your responses should reach us within 15 days.***

**For further enquiry:** Bhopal: 563380 (10 AM - 5 PM), Delhi: 2280870 (9PM - 10PM), Udaipur: 560615 (8PM - 9PM), Bombay: 5783323 (8PM - 9PM)

## MEETINGS/SYMPOSIA/SEMINARS

### **STORMCUP '97 (Short Training on Research in Marine Cyanobacterial utilization Programme – 1997)**

Date: 10–21 February 1997

Place: Tiruchirapalli

The training provides hands on experience on various techniques using different instruments such as LS Counter, GC, HPLC, Electrophoresis, Photomicrography and ELISA. Lectures and field trip to Gulf of Mannar area for field experiments and collection are also arranged.

Contact: Dr G. Subramanian, Director  
National Facility for Marine Cyanobacteria  
Bharathidasan University

Fax: 0431–660384  
E-mail: nfmc@bdu.rect.ernet.in.

### **A Short Term Course on Soft Condensed Matter**

Date: 10–15 March 1997

Place: Vadodara

The course will consist of series of lectures with a few tutorials, practicals and will cover the following topics: Surfactants and micro

emulsions, Polymers, Colloids and biocolloids, Ferrofluids, Surfaces and interfaces. Experimental methods include: Microscopic techniques (rheology, conductivity, etc.), Scattering techniques (SANS, SAXS, Light scattering), Electron microscopy, Relaxation techniques (NMR, ESR, etc.), Computer simulation. Interested Ph D students and young researchers may apply.
