

Two services from INSDOC that will fulfil your information needs

CONTENTS ABSTRACTS AND PHOTOCOPY SERVICE (CAPS)

What is **CAPS** ?

CONTENTS, ABSTRACTS AND PHOTOCOPY SERVICE (**CAPS**) is an innovative personalised information service provided by INSDOC.

A list of over 7,500 core journals in various disciplines will be sent to you free on request. Select from this list the journals of your interest (15 for individuals and 30 for institutions against one subscription). Send your list to us and you will receive at your door step every month, the **table of contents** from each of your chosen journals.

Why **CAPS** ?

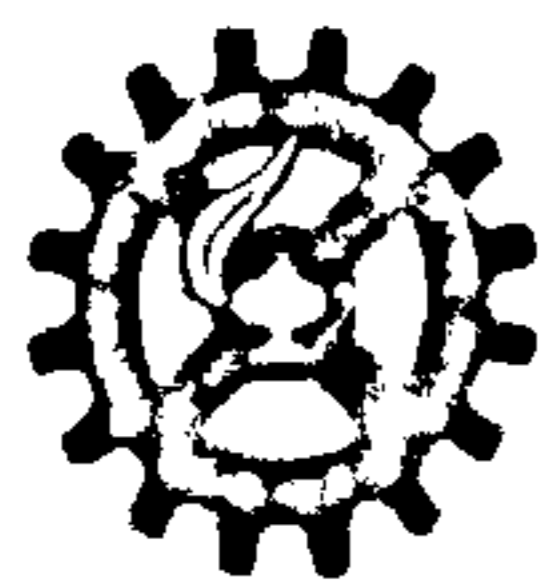

A **CAPS** subscriber saves time as the latest information reaches his desk regularly and on time. Information from periodicals that are otherwise difficult to obtain is made available to him through **CAPS**. After going through the **table of contents**, he can obtain the **abstract** or **full text** of the required articles through INSDOC's **Document Copy Supply Service**. What's more, **CAPS** is available to you for a very nominal annual subscription on diskette, paper or e-mail.

DOCUMENT COPY SUPPLY SERVICE

INSDOC provides copies of articles from all Indian and hundreds of foreign scientific journals. Copies of Indian and foreign patents and standards can also be ordered.

Subscribe to **CAPS** and be at the forefront in your area of research.
