

NCBS Symposium on Cell and Developmental Biology 9th-12th January 2001

Organized by: Satyajit Mayor, K VijayRaghavan
National Centre for Biological Sciences, Tata Institute of Fundamental Research, Bangalore.

Venue: JN TATA Auditorium, National Science Seminar Complex. Indian Institute of Science Campus, Bangalore, 560 012.

The purpose of this symposium is to bring together biologists with diverse backgrounds and stimulate interaction on issues that relate to how cellular mechanisms regulate developmental decisions. We encourage the large Indian student population to attend this symposium so that they are exposed to current trends in Cell and Developmental Biology.
