

CURRENT SCIENCE

Special Section: Science in the Third World

(25 October 2001)

Guest editor: C. N. R. Rao

Guest editorial: Science in the rising nations

C. N. R. Rao, *Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore*

Science for the 21st century

José Israel Vargas, *Brazilian Ambassador at UNESCO, France*

The Third World Academy of Sciences: Celebrating two decades of progress

Mohamed H. A. Hassan and Daniel Schaffer, *Third World Academy of Sciences, Italy*

Some personal reflections on the origin of TWAS and the evolution of its mission

M. Akhtar, *University of Southampton, UK*

Construction of Chinese national S&T innovation system and latest advancements in science and technology in China

Yongxiang Lu, *Chinese Academy of Sciences, China*

Disappearing forests of Uganda: The way forward

F. I. B. Kyanja and D. Byarugaba, *Mbarara University of Science and Technology, Uganda*

Food security and sustainable development

M. S. Swaminathan, *M.S. Swaminathan Research Foundation, Chennai, India*

Intellectual property rights and the Third World

R. A. Mashelkar, *Council of Scientific and Industrial Research, New Delhi, India*

Information and communication technologies and the digital divide in the Third World countries

N. Balakrishnan, *Indian Institute of Science, Bangalore*

India's physics experience

T. V. Ramakrishnan, *Indian Institute of Science, Bangalore, India*

Structural studies of the acetylcholine receptor in the membrane environment

Francisco J. Barrantes, *Instituto de Investigaciones Bioquímicas de Bahía Blanca, Argentina*

Enzymology and molecular genetics of the ligninolytic system of the basidiomycete *Ceriporiopsis subvermispora*

S. Lobos, M. Tello, R. Palanco, L. Larrondo, A. Manubens, L. Salas and R. Vicuña, *Pontificia Universidad Católica de Chile, Chile*

The bountiful and baffling baculovirus: The story of polyhedrin transcription

Aruna Ramachandran, Murali Dharan Bashyam, Priya Viswanathan, Sudip Ghosh, M. Senthil Kumar and Seyed E. Hasnain, *Centre for DNA Fingerprinting and Diagnostics, Hyderabad, India*

Curved nanomaterials

Humberto Terrones, Mauricio Terrones and José Luis Morán-López, *Instituto Potosino de Investigación Científica y Tecnológica, México*

Universal aspects of self-assembly: The wide domain of weak interactions

C. N. R. Rao, *Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore, India*

Crystal engineering: Outlook and prospects

Gautam R. Desiraju, *University of Hyderabad, Hyderabad, India*

Versatile reagent ceric ammonium nitrate in modern chemical synthesis

Jih Ru Hwu and Ke-Yung King, *Institute of Chemistry, Republic of China*

Chemical reaction dynamics and relaxation phenomena in one component liquids, binary mixtures and electrolyte solutions

Biman Bagchi, *Indian Institute of Science, Bangalore, India*

Tectonic resurgence of the Mysore plateau and surrounding regions in cratonic southern India

K. S. Valdiya, *Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore, India*
