

Advanced School on Nanomaterials Preparation, Characterization and Manipulation

Time: 9–22 February 2003

Venue: Indian Institute of Science and Jawaharlal Nehru Centre for
Advanced Scientific Research, Bangalore

Sponsored by

Department of Science and Technology (DST)
Ministry of Science and Technology
Government of India

This advanced school is being organized by DST as a part of the National Initiative on Nano Science and Technology. The scope of the advanced school is to provide hands-on experience to young researchers in the methods of nanomaterials fabrication, characterization and manipulation. The course will also provide exposure to a selected cross section of advanced research topics. The school will have more than 20 lectures and will have about 10 laboratory sessions.

PhD students, Postdoctoral RAs and young faculties (age up to 40 years) who are working in this area can apply. The school will be restricted to 20 participants. The participants must stay for the full period of the school. Selected participants will be provided to and fro train fare in AC-3 tier, local hospitality and a small allowance.

Applications on plain paper may kindly be sent to: **Dr R. C. Srivastava**, SERC Division, Department of Science & Technology, New Mehrauli Road, New Delhi 110 016.

The application must contain a CV, address of contact (with e-mail if available), record of past academic achievements, area of research and research experience and publications (must for RAs). The application must also accompany a letter of recommendation from the research supervisor that the school is of direct relevance to the research work done by the applicant. The selection will be made by an expert committee and will be intimated to the candidates by 15 December 2002. The last date of application to reach DST is **30 November 2002**.
