

Skalar Analytical, a worldwide leader in Automated Wet Chemistry analyzers, TOC analyzers and Robotic analyzers is seeking for an application chemist for its new application laboratory in Chennai

The job duties include:

- Provide application and technical support for Skalar's partners and clients in the region
- Prepare and deliver customer demonstrations that show Skalar's product features
- Analyze samples submitted by prospective customers and present results
- Maintain analyzers and lab environment in good shape in Chennai.
- Prepare application notes, seminar material and presenting papers at conferences, seminars and magazines in English and preferably also in some local languages
- Must travel overnight in and outside the region as the position requires
- Must follow the training program of several months at Skalar's application laboratory in The Netherlands.

The position requires:

- M.Sc. in Chemistry
- Excellent oral and written communication skills
- Experience and/or interest in chemistry automation

Interested Applicants may submit their resume and salary requirements, by mail, email or fax to:
