

## Workshop on Genotyping Techniques in Clinical Diagnostics (April 28–May 14, 2008)

### National Institute for Research in Reproductive Health (ICMR)

The National Institute for Research in Reproductive Health (ICMR), Mumbai is organizing a two-week Workshop to impart training to clinical researchers on the state-of-the-art molecular techniques for genotype analysis as applied to disease diagnostics. Areas covered will include reproductive and genetic disorders, infectious diseases, cancer and prenatal diagnostics.

#### Participants

The Course is aimed at mid career medical graduates/clinical researchers holding regular positions in Medical Institutions/National Laboratories/Research Institutes. They should be sponsored by their parent Institutions. Interested candidates can apply with full details through e-mail at following address: anurupamaitra@yahoo.co.in or maitraa@nirrh.res.in. Candidate's research experience, facilities available with their Institutions and the utility of the Training Course in their research activities would be the main considerations for selection.

Applications must be submitted by **25 March 2008**.

**The course is of 15 days duration and a Certificate of completion will be provided upon conclusion. Enrolment is for 12 participants.**

### Department of Genetics University of Delhi South Campus Benito Juarez Road New Delhi 110 021

Our laboratory is interested in students who want to do Doctoral Research work on molecular mapping of agronomic traits in oilseed mustard *Brassica juncea*. Current research is on mapping of QTL and disease resistance. Good background and interest in genetics, molecular biology and plant pathology will be useful. Interested candidates may send their enquiries and CV at [pradhanakshay@hotmail.com](mailto:pradhanakshay@hotmail.com)
