

772 are based on the given sources which are marked beside the curves. Square symbol  
773 represents Depleted Mantle concentration, Circle symbol represents Primitive Mantle  
774 concentration, Diamond symbol represents Sub-Continental Mantle Lithospheric  
775 concentration, and triangles represent the concentrations of studied pyroxenites.

776 **Table. 1:** Whole-rock analysis of pyroxenites in and around Salem Mafic-Ultramafic  
777 Complex (SMUC).

778 **Table. 2:** Mineral analysis of pyroxenites in and around Salem Mafic-Ultramafic Complex  
779 (averages). The detailed data is provided as supplementary material.
